

IQ400 Certification Statement

LAGNAF™ Network LLC | AUTOAPPEAL™ | Phase 2 Completion Package

Certification Standard

This package is organized to an IQ400 operating standard: clear scope, safe credential handling, founder-controlled infrastructure, explicit acceptance criteria, Red Vault™ protections, QA scoring, deployment discipline, and immediate engineer usability.

Required Use

Jason should use this package as the master Phase 2 completion source of truth. If any instruction conflicts with a later written Founder instruction, the written Founder instruction controls.
