

Jurisdiction Countdown Logic

LAGNAF™ Network LLC | AUTOAPPEAL™ | Phase 2 Completion Package

Purpose

Every citation upload should generate a jurisdiction-aware deadline timer and escalation path. In Phase 2, this may be semi-manual where jurisdiction rules are not fully automated, but the data model and reminder structure must be ready.

Reminder Cadence

Initial confirmation immediately

Reminder at standard interval

Escalation at 48 hours remaining

Urgent reminder at 24 hours remaining

Admin alert when deadline risk is detected
