

Intake Flowchart

LAGNAF™ Network LLC | AUTOAPPEAL™ | Phase 2 Completion Package

Operational Flow

Visitor lands on AUTOAPPEAL™ page -> submits citation intake -> API validates input -> file and customer record created -> confirmation email/SMS sent -> HubSpot lead created -> admin queue receives case -> deadline logic calculates countdown -> admin accepts, rejects, flags, or requests more information.

Required Data

Name, email, phone, city/state, citation details, violation date, response deadline if available, upload link/file status, consent fields, referral code if present.
