

QA Acceptance Protocol

LAGNAF™ Network LLC | AUTOAPPEAL™ | Phase 2 Completion Package

Scoring

A minimum score of 90 is required before go-live approval. If the score is exactly 90, Jason must submit a correction roadmap for remaining items before production launch.

Evidence Required

Screenshots of successful form submission

Build log showing clean compile

Test email proof

HubSpot record proof

SMS test proof if active

Database record proof

No exposed secrets confirmation

Mobile screenshots
